👤 PROFESSIONAL SUMMARY

Computer Science & Engineering graduate with hands-on experience in Competitive Programming, Full-Stack Development, and AI/ML. Skilled in building scalable web and mobile applications, REST APIs, database design, authentication, and responsive user interfaces. Strong foundation in data structures, algorithms, and object-oriented programming. A quick learner who embraces AI tools, adapts to new technologies, and develops clean, reliable software using Agile practices.

📁 WORK EXPERIENCE

Eutopia IT Solutions Ltd, *Software Quality Assurance (SQA) & UI/UX Intern* 02/2026 – 06/2026
Dhaka

- Performed manual testing of web applications, identified, documented, and reported software defects, and collaborated with developers to validate bug fixes and ensure software quality.
- Key Tech:** Figma, Trello, GitHub, Agile, SDLC. Bug Tracking, Manual Testing, UI/UX Design, Wireframing,

🎓 EDUCATION

BSc (Eng.) in Computer Science and Engineering, *University of Asia Pacific* 2022 – 2026

- CGPA: **3.55/4.00** with **1** Vice Chancellor and **3** Dean's Awards
- Graduated July 9, 2026

🧠 TECHNICAL SKILLS

Programming Languages

C, C++, C #, Python, JavaScript, TypeScript, PHP, Dart

Frameworks & Libraries

React, Next.js, Django, Laravel, Tailwind CSS, Bootstrap, .NET, Flutter, HTML5, CSS3, Node.js, AngularJS

Databases

MySQL, PostgreSQL, Supabase, SQLite, MongoDB

DevOps & Cloud

Docker, AWS, Git, GitHub, Bash, Linux, HTTP

Core Fundamentals

OOP, Data Structures & Algorithms, System Design, Database (DBMS)

Developer Tools

Cloudinary, Postman, Godot4, Figma, n8n, Convex, & Markdown, Replit

📁 PROJECTS

RootReach 🔗, *Django, Python, Tailwind CSS, JavaScript, SQLite, Cloudinary, Neon* 2023

- Developed a Full-stack e-commerce platform connecting rural producers with consumers using Django and PostgreSQL.
- Implemented role-based authentication, shopping cart, order tracking, Admin Dashboard Cloudinary integration, and responsive UI.

Horizon-Planner 🔗, *Cloudinary, Django, PostgreSQL (Neon), Python* 2025

- Built an Full-Stack event management platform supporting event creation, booking, authentication, and role-based dashboard management. Optimized performance and responsive design.

Snakhi.io Arcade Game 🔗, *Godot 4, GDScript* 2026

- Developed a cross-platform arcade game using Godot 4 and GDScript for Web, Windows, and Android.
- Implemented responsive gameplay, collision detection, score tracking, and optimized game performance.

LifeFlow 🔗, *PHP, Flutter, Laravel 11, REST APIs, Sanctum, DART* 2026 – Present

- Developed a cross-platform productivity app for task management, expense tracking, and habit-building using Flutter and Laravel REST APIs with Sanctum authentication.
- Applied Riverpod and Clean Architecture to build a scalable and maintainable mobile application.

Different-Programming-Platform 🔗, *Competitive Programming Repository* 2022 – Present

- Solved 1000+ problems across 25+ online judges.
- Strengthened problem-solving skills in algorithms, data structures, graph theory, and dynamic programming.

🏆 ACHIEVEMENTS & CERTIFICATIONS

Vice Chancellor Award (1 Time) and Dean's Award (3 Times) for academic excellence.
