Panthpath green road, Bangladesh

Dear Afrin Sultana Akhi,

It gives us great pleasure to confirm your appointment as a SQA Engineer at Eutropia IT, effective February 10, 2026. We are confident that your technical expertise and creative mindset will be valuable additions to our development team.

As a SQA Engineer, your key responsibilities will include:

- Creating comprehensive test plans and test cases.
- Executing manual and automated testing to identify bugs.
- Documenting defects and working with developers on fixes.
- Ensuring the final product meets quality standards.

We trust that you will perform your duties with dedication and professionalism, upholding the values and standards of Eutropia IT.

Please confirm your acceptance of this appointment by signing and returning the acknowledgment below.

We warmly welcome you to the Eutropia IT team and look forward to your success with us.

Best Regards,

A handwritten signature in blue ink, appearing to read "Tofail".

Tofail Ahmmed Emon

HR Manager
