📄 PROFESSIONAL SUMMARY

Computer Science & Engineering graduate with expertise in **Full-Stack Development, Data Analytics, and Machine Learning**, backed by hands-on experience building production-style web and mobile applications. Proficient in Back End, Web Design, **Django, React, Next.js, Flutter, Laravel, PostgreSQL, Python, and modern cloud technologies Frameworks**, Experienced in building REST APIs, database design, authentication systems, responsive user interfaces, and version control using Git. Solved competitive programming problems, demonstrating strong problem-solving skills, data structures, algorithms, and object-oriented programming. Passionate about building scalable software, AI-powered applications, and data-driven solutions using clean code principles and Agile development practices

📁 WORK EXPERIENCE

Eutopia IT Solutions Ltd, <i>Software Quality Assurance (SQA) & UI/UX Intern</i>	02/2026 – 06/2026 Dhaka
- Performed manual testing of web applications by identifying, documenting, and reporting software defects. - Collaborated with developers to verify bug fixes and improve application quality. - Gathered business requirements by interviewing business owners and translating them into functional requirements and UI/UX design. - Created UI/UX design concepts and wireframes using Figma. - Worked in an Agile development environment using Jira, Trello, Git, and GitHub for task management, collaboration, and version control. - Gained practical knowledge of the Software Development Life Cycle (SDLC), software testing methodologies, stakeholder communication, and team collaboration.	

🎓 EDUCATION

BSc (Eng.) in Computer Science and Engineering, <i>University of Asia Pacific</i>	2022 – 2026
CGPA: 3.55/4.00 with 1 Vice Chancellor and 3 Dean's Awards	

🧠 TECHNICAL SKILLS

Programming Languages

C, C++, Python, JavaScript, TypeScript, PHP, Dart

Frameworks & Libraries

React, Next.js, AngularJS, Tailwind CSS, Bootstrap, Django, Laravel, .NET, Flutter, HTML5, CSS3, Node.js

Databases

MySQL, PostgreSQL, Supabase, SQLite, MongoDB

DevOps & Cloud

Docker, AWS, Git, GitHub, Bash, Linux, HTTP

Core Fundamentals

OOP, Data Structures & Algorithms, System Design, Database (DBMS)

Developer Tools

Cloudinary, Postman, Godot4, Figma, n8n, Convex, & Markdown, Replit

📁 PROJECTS

RootReach 🔗, <i>Django, Python, Tailwind CSS, JavaScript, SQLite, Cloudinary, Neon</i>	2023
- Developed a full-stack e-commerce platform connecting rural producers with consumers using Django and PostgreSQL. - Implemented role-based authentication, shopping cart, order tracking, Cloudinary integration, and responsive UI.	
Horizon-Planner 🔗, <i>Cloudinary, Django, PostgreSQL (Neon), Python</i>	2025
- Built an event management platform supporting event creation, booking, authentication, and dashboard management. - Integrated PostgreSQL (Neon) and Cloudinary while optimizing performance and responsive design.	
Snakhi.io Arcade Game 🔗, <i>Godot 4, GDScript</i>	2026
- Developed a cross-platform arcade game using Godot 4 and GDScript for Web, Windows, and Android. - Implemented responsive gameplay, collision detection, score tracking, and optimized game performance.	
LifeFlow 🔗, <i>Flutter, Laravel 11, REST APIs, Sanctum, PHP, DART</i>	2026 – Present
- Developed a cross-platform productivity app for task management, expense tracking, and habit-building using Flutter and Laravel REST APIs with Sanctum authentication. - Applied Riverpod and Clean Architecture to build a scalable and maintainable mobile application.	
Different-Programming-Platform 🔗, <i>Competitive Programming Repository</i>	2022 – Present
- Solved 1000+ problems across 25+ online judges. - Strengthened problem-solving skills in algorithms, data structures, graph theory, and dynamic programming.	

🏆 ACHIEVEMENTS & CERTIFICATIONS

Vice Chancellor Award (1 Time) and Dean's Award (3 Times) for academic excellence.

Master Git and GitHub - Beginner to Expert Udemy 🔗
