Experience

- Trainee (SQA & UI/UX Intern), Eutopia IT Solutions Ltd · Dhaka (Feb 2026- June)

Computer Science graduate with hands-on experience in full-stack web development, competitive programming, and AI/ML research. Passionate about building scalable software, exploring intelligent systems, and applying modern frameworks, clean code practices, and version control to solve real-world problems.

Skills

- Languages: C, **C++**, **Python**, JavaScript, **TypeScript** (Beginner), **PHP**, **Dart**
- Frameworks & Libraries: Django, **Next.js**, **React**, **Angular**, **Laravel**, .NET, Tailwind CSS & Bootstrap,
- Databases & Tools: Cloudinary, **MySQL**, PostgreSQL, Convex, Supabase, Git, Bash, Linux & Markdown, Hermes AI, **n8n**, **AWS**, **Replit**, **Godot 4** for game dev, **Docker**, Postman. **Flutter**, Core
- Fundamentals: **OOP**, Data Structures & Algorithms, Basic System Design

Projects & Works

[Horizon](#)

- A **Django-based event management platform** powered by **Cloudinary** and **Neon**, enabling organizers to create and manage events while allowing users to explore and book conferences, concerts, workshops, weddings, and more

[RootReach](#)

- A centralized **e-commerce platform** connecting rural producers directly with consumers, offering authentic products, fair pricing, secure payments, courier integration, shopping cart, user authentication, admin dashboard, and order tracking
- **Tech Stack:** Django, Python, Tailwind CSS, JavaScript, SQLite, Cloudinary, Neon

[Snakhi.io](#)

- Designed and developed a **cross-platform arcade game** using Godot 4 and GDScript, optimizing for smooth gameplay and responsive UI across Web, Windows, and Android.

[LifeFlow](#)

- Designed and developed a **cross-platform** task management, expense tracking, and habit-building **application** using Flutter (Riverpod, Clean Architecture) and Laravel 11 REST API with Sanctum authentication

[Different-Programming-Platform](#)

- Maintained a repository of **1000+ competitive programming solutions** from Codeforces, LeetCode, CodeChef, and **25+ other** online Judges.

Education

University of Asia Pacific (2022 - 2026) BSc (Eng.) in

Computer Science and Engineering

CGPA: **3.55** / 4.00 with **1 Vice Chancellor** and **3 Dean's Awards**

Achievements & Certifications

- Solved 1000+ programming problems across [Codeforces](#), [BeeCrowd](#) & [CodeChef](#)
- [Master Git and GitHub - Beginner to Expert Udemy](#)
- [Introducing AI concepts & different Machine learning techniques Udemy.](#)
